

MPS members,

The continuing COVID-19 (or Coronavirus) challenges us all in our daily activities and the Macarthur Photographic Society is committed to following all directions by the Australian and NSW Governments and Council guidelines and has developed a COVID Safe plan which will be followed and updated as directives change.

Currently there are no formal restrictions to holding meeting in our hall meeting location. However, COVID is still prevalent in the community and will continue to be for the foreseeable future. Therefore, the NSW Health still strongly recommends wearing a mask in settings where you cannot physically distance which can include times when meeting at the hall.

We would ask members if they or anyone in their circle of contacts have even the mildest symptoms or are generally not feeling well, we ask you not to attend that meeting and take the necessary steps to get tested.

If hall meetings once again become impossible, we will proceed with online Zoom meetings for both competition and presentation meetings as well as any other opportunities that we can organise to have online contact between members.

We thank you for your understanding through these difficult times and be aware that the Committee is working very hard to continue bringing you fun, educational and entertaining events that can keep us connected safely as a larger photographic community.

Please stay safe and well and in touch.

Kind Regards

Neil Loomes

President

Macarthur Photographic Society
